

Rgb Architectural Lighting LED Strip Light CE Certified LED Linear Luminaire

Our Product Introduction

Basic Information

- Place of Origin: hangzhou
- Brand Name: fwlc
- Certification: fofi9087
- Model Number: akc1342
- Minimum Order Quantity: 1000

Product Specification

- Waterproof: Tube Waterproof
- Power Input Voltage: AC110-220V
- Ip Rate: IP68
- Wattage: 6W
- Led Size: SMD5050
- Package: 5m/string
- Lamp Luminous: 18-20lm/led
- Lifespan: 50000hours

Product Description

Product Introduction

The LED Strip Light is a versatile and energy-efficient lighting solution designed to enhance any space with its bright and vibrant illumination. This product is ideal for both residential and commercial applications, offering flexible installation options and a range of color temperatures to suit various environments. With its slim and sleek design, the LED Strip Light seamlessly blends into any decor, providing both functional and aesthetic benefits.

Product Specifications

Parameter	Details
Beam Angle	120 degrees
Waterproof Rating	IP65 (for waterproof version)
Dimmable	Yes (with compatible dimmer)
Lifespan	50000hours
Certification	CERoHS
Operating Temperature	-20°C to 50°C

Product Advantages

The LED Strip Light boasts several advantages that make it a superior choice for lighting needs. Firstly, its energy efficiency reduces electricity costs and minimizes environmental impact compared to traditional lighting. The flexibility of the strip allows for easy installation in various settings, from under cabinets to outdoor landscapes, thanks to its high waterproof rating. Additionally, the long lifespan and robust build quality ensure durability and low maintenance. The availability of different color temperatures and RGB options provides customization to create the desired ambiance, while the dimmable feature adds versatility in adjusting the brightness to suit different occasions.
