

## Brightness IP68 LED Strip Waterproof SMD 5050 12V Waterproof RGB for Outdoor Lighting

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: JJY
- Certification: SGS, RoHS, Reach, ISO
- Model Number: CFP01
- Minimum Order Quantity: 1pc
- Price: Negotiable
- Packaging Details: standard packing, as customer demands
- Delivery Time: 15 - 30 Days
- Payment Terms: L/C,T/T,etc.
- Supply Ability: 500000pcs per month

### Product Specification

- Led Type: 5050
- Protection Grade: IP68
- Model: SMD 5050
- Led Chip: Epistar / SMD2835
- Power Input Voltage: AC110-220V
- Output Voltage: DC5V
- Tube Chip Color: Full Color
- Led Size: SMD5050

## Product Description

### Product Description:

The LED Strip Light is equipped with the latest LED technology, using 5050 LED type which provides superior brightness and color rendering. This ensures that the colors are accurate and vibrant, making it perfect for use in areas where lighting is important. The LED Strip Light is also available in SMD 5050 and LED chip from Epistar / SMD2835, giving you a wide range of options to choose from. The LED Strip Light is designed to be used in wet and damp locations, thanks to its IP65 rating. This makes it an ideal choice for outdoor lighting applications where exposure to moisture is a concern. The LED Strip Light is also protected by an IP68 grade, which means that it is completely dust-tight and can be submerged in water up to 1 meter deep for up to 30 minutes without damage. The LED Strip Light is easy to install and can be cut to fit any length. It comes with an adhesive backing, making it easy to attach to any surface. The LED Strip Light is also flexible, allowing it to be bent and shaped to fit any space. This makes it perfect for use in tight spaces or areas with unusual shapes. The LED Strip Light is energy efficient and cost-effective, making it a great alternative to traditional lighting solutions. It consumes less power and has a longer lifespan than traditional lighting, resulting in lower energy bills and maintenance costs. The LED Strip Light is also environmentally friendly, as it does not contain any hazardous materials such as mercury or lead. In summary, the LED Strip Light is a high-quality lighting solution that can be used for a wide range of applications. Its superior brightness and color rendering, combined with its waterproof and dust-tight design, make it ideal for use in wet and damp locations. Its energy efficiency and flexibility make it a cost-effective alternative to traditional lighting solutions. Whether you need LED backlighting, LED strip waterproof, or LED under cabinet lighting, the LED Strip Light is a reliable and versatile choice.

### Features:

Product Name: LED Strip Light  
Model: SMD 5050  
Usage: Indoor Use Only  
Voltage: 12V  
Power Input Voltage: AC110-220V  
Output Voltage: DC5V  
Features:  
LED tape light for easy installation  
Flexible LED strip light for versatile use  
Energy efficient LED backlighting  
Long-lasting and durable design  
Customizable length for a perfect fit

### Technical Parameters:

Power Input Voltage	AC110-220V
Led Type	5050
Protection Grade	IP68
Output Voltage	DC5V
Tube Chip Color	Full Color
Voltage	12V
Usage	Indoor Use Only
Led Chip	Epistar / SMD2835
Ip Rating	IP65
Model	SMD 5050

This LED strip light is perfect for creating LED Cove Lighting, LED Mood Lighting, and other indoor lighting applications.

### Applications:

The JYJ LED Strip Light is a Full Color product with an Output Voltage of DC5V. It has an IP Rating of IP65, which means that it is dust-tight and can withstand water jets from any direction. However, it is recommended for indoor use only.

Product Application Occasions and Scenarios

The JYJ LED Strip Light is versatile and can be used in various settings. Here are some of the possible application occasions and scenarios:

LED Backlighting

The JYJ LED Strip Light is perfect for backlighting a TV or computer monitor. It can create a beautiful and immersive viewing experience by adding ambiance and reducing eye strain. The Full Color feature allows you to choose from a wide range of colors to match your mood or decor.

LED Under Cabinet Lighting

The JJY LED Strip Light is an ideal choice for under cabinet lighting in the kitchen or bathroom. It provides bright and even illumination, making it easier to prepare food or apply makeup. The DC5V Output Voltage ensures that the light is energy-efficient and safe to use. LED Mood Lighting

The JJY LED Strip Light can be used to create a cozy and relaxing atmosphere in any room. You can place it behind your bed or sofa to create a warm and inviting glow. The Full Color feature allows you to customize the lighting to suit your mood or occasion. In conclusion, the JJY LED Strip Light is a high-quality product that is versatile and can be used in various settings. Whether you need LED Backlighting, LED Under Cabinet Lighting, or LED Mood Lighting, this product is an excellent choice.
