

Energy Efficient IP68 Waterproof LED Strip Waterproof 12V DC5V for Indoor Use Only IP65 Rated

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: JJY
- Certification: SGS, RoHS, Reach, ISO
- Model Number: CFP01
- Minimum Order Quantity: 1pc
- Price: Negotiable
- Packaging Details: standard packing, as customer demands
- Delivery Time: 15 - 30 Days
- Payment Terms: L/C,T/T,etc.
- Supply Ability: 500000pcs per month

Product Specification

- Protection Grade: IP68
- Output Voltage: DC5V
- Voltage: 12V
- Usage: Indoor Use Only
- Led Type: 5050
- Led Size: SMD5050
- Ip Rating: IP65
- Power Input Voltage: AC110-220V

Product Description

Product Description:

The LED type used in this strip light is 5050, which is known for its brightness and energy efficiency. This ensures that your space is well-lit while keeping your energy costs low.

Our LED Strip Waterproof has a protection grade of IP68, which means it is completely waterproof and can be used both indoors and outdoors. This makes it perfect for use in spaces like bathrooms, kitchens, swimming pools, gardens, and more.

With an output voltage of DC5V, this LED strip light is safe to use and will not cause any electrical hazards. It is also easy to operate and can be controlled using various devices like smartphones, tablets, and remote controls.

Our LED Strip Waterproof is ideal for creating a relaxing atmosphere in your home, office, or commercial space. It can be used as LED Ambient Lighting, providing a warm and inviting glow that is perfect for any occasion. It is also great for highlighting specific areas or objects in your space, like artwork, furniture, or architectural features.

This LED strip light is available in different lengths and colors, making it easy to find the perfect fit for your space. It is also easy to install and can be cut to size, allowing you to customize it to your specific needs.

Overall, our LED Strip Waterproof is a great investment for anyone looking to enhance the lighting in their space. With its energy efficiency, versatility, and durability, this LED strip light is sure to provide you with a lighting experience that will last for years to come.

Features:

Product Name: LED Strip Light

Tube Chip Color: Full Color

Led Chip: Epistar / SMD2835

Usage: Indoor Use Only

Led Type: 5050

Output Voltage: DC5V

This LED Strip Light is a versatile product that can be used for a variety of purposes, including LED Linear Light, LED Backlighting, and LED strip light. With its full color Tube Chip and high-quality Epistar / SMD2835 Led Chip, this product delivers bright and vivid lighting that is perfect for indoor use only. It operates on a DC5V Output Voltage and uses a 5050 Led Type, making it an efficient and reliable choice for your lighting needs.

Technical Parameters:

Led Type	5050
Tube Chip Color	Full Color
Ip Rating	IP65
Model	SMD 5050
Protection Grade	IP68
Output Voltage	DC5V
Power Input Voltage	AC110-220V
Led Size	SMD5050
Usage	Indoor Use Only
Voltage	12V

This LED Strip Light product is suitable for LED Under Cabinet Lighting, LED tape light, and LED Accent Lighting.

Applications:

If you're looking for a versatile and high-quality LED strip light, the JJY CFP01 LED Strip Kit is an excellent choice. This product is made in China and is certified with SGS, RoHS, Reach, and ISO, ensuring its quality and safety. The minimum order quantity is only 1pc, and the price is negotiable. The packaging can be customized according to customer demands, and delivery time is around 15-30 days, with L/C, T/T, and other payment terms accepted. The supply ability is up to 500000pcs per month, so you can be sure that this product is readily available when you need it.

The JJY CFP01 LED Strip Kit features full-color tube chip colors with SMD5050 LED type, making it perfect for a wide range of applications. The protection grade is IP68, which means that it's waterproof and dustproof, making it great for use in outdoor environments. The output voltage is DC5V, making it energy-efficient and safe to use.

One of the most common applications for the JJY CFP01 LED Strip Kit is LED backlighting. With its customizable length, it can be used to backlight TVs, computer monitors, and other displays. It's also a great choice for decorative lighting in homes, offices, and other indoor spaces. Additionally, it's a popular choice for automotive lighting, as it's easy to install and can be cut to fit the specific dimensions of a vehicle.

Another great use for the JJY CFP01 LED Strip Kit is as accent lighting in commercial settings. It's perfect for highlighting products in retail stores or creating a unique ambiance in restaurants and bars. Its waterproof design also makes it a great choice for outdoor signage and displays.

In conclusion, the JJY CFP01 LED Strip Kit is a versatile and high-quality product that can be used in a wide range of applications.

Whether you're looking for LED backlighting, decorative lighting, accent lighting, or anything in between, this product is an excellent choice. With its high-quality construction, customizable length, and energy-efficient design, you can be sure that you're getting a product that will meet your needs and exceed your expectations.
